# CASTLE PINES NORTH

METROPOLITAN DISTRICT™

Beginning this August, our manager of water & wastewater operations, Nathan Travis, will host guided tours of our newly renovated water treatment plant. Come join us! Please register for your preferred tour date on our homepage at [www.cpnmd.org](http://www.cpnmd.org) or call (303) 688-8550.

**Dates:** Wednesday, August 3rd\*  
Wednesday, August 17th\*  
Wednesday, August 31st\*

**Time:** 7:30 a.m. to 9:00 a.m.

**Location:** Meet at CPNMD's office

**Address:** 7404 Yorkshire Drive, Castle Pines

**Directions:** NE corner of Castle Pines Parkway and Yorkshire Drive

*\* Because this is a secure facility and space is limited, we require advanced reservations and limit each tour to 12 residents. Based on demand, we may add guided tour dates. Light refreshments provided.*

The Castle Pines North Metro District provides clean, safe, reliable, on-demand drinking water, wastewater, stormwater, parks, trails, and open space services to the people of Castle Pines, west of I-25. Board meetings are available for viewing via live video stream and video recording at [cpnmd.org](http://cpnmd.org).

## FREE SPRINKLER SYSTEM AUDIT

# You and your HOA are eligible for a comprehensive sprinkler system audit — at no charge!

In partnership with Resource Central's **Slow the Flow** program, the Castle Pines North Metro District urges all homeowners and HOAs to register for a comprehensive irrigation-system audit.

We face another month (or two) of searing dry heat. In that context, please know our sprinkler-system audits often reveal costly water leaks, necessary sprinkler-head adjustments, and a host of other water-conservation opportunities.

## FREQUENTLY ASKED QUESTIONS

### WHAT TO KNOW BEFORE YOUR AUDIT

**Q:** When are audits available?

**A:** Audits take place M-F from 8:00am to 4:00pm by appointment only.

**Q:** How long does an audit last?

**A:** Depending on the size of a residential property, an audit can last 1-1.5 hours. Note: non-residential properties can take several days.

**Q:** Does someone have to be home?

**A:** Yes. An adult, 18 years or older, must be on the premises for the entire audit.

**Q:** Does my system have to be on?

**A:** Yes. You must have your system turned on before we arrive. We will not touch any valves or backflow preventers to start a system.

### DURING YOUR AUDIT

**Q:** What does a sprinkler audit involve?

**A:** A Slow the Flow sprinkler audit includes:

- A visual inspection to pinpoint problems in your sprinkler system.
- Tests to measure precipitation rates—how much water is coming out of the sprinkler system.
- Tests to determine distribution uniformity—how evenly the water is covering the intended area.
- Soil sample to determine root depth and soil type.

**Q:** What safety precautions are you taking due to COVID-19?

**A:** Our technician will wear a mask and maintain at least 6 feet of social distance. They will also sanitize your control clock prior to using it, and after they are done. Only control clocks outside or in a garage are eligible.

**Q:** What happens after the audit?

**A:** You will receive a customized watering schedule as well as recommendations and tips to make your sprinkler system more effective and efficient.

**Please register for your free sprinkler-system audit today at [ResourceCentral.org/sprinklers](https://ResourceCentral.org/sprinklers) or call (303) 999-3824.**

# Benefits of Your Audit

## NO MORE WATER WASTE

Technicians can make adjustments to the sprinklers and schedule so no water is used where/when it shouldn't.

## CUSTOM RESULTS

Several tests are performed at each residence resulting in specific recommendations for that system.

## IMPROVED SYSTEM KNOWLEDGE

We aim to leave the customer with enough knowledge about their system that they can water with confidence!

## INCREASED EFFICIENCY

Our watering schedules are based on science to get you the healthiest grass using the right amount of water.

## SPRINKLER TIPS AND REMINDERS

Sign up for our bi-weekly Colorado Sprinkler Guide to keep updated on how often to water and seasonal tips.
